COMPANY

Founded in October 2001 by José Bertozzi, Tozzi Alimentos has followed a family tradition of more than 50 years in fruit growing.

It is located in São Sebastião do Paraíso, in the southwest of Minas Gerais, a region considered to be the largest producer of GREEN FIG in Brazil.

In order to meet the needs of the Brazilian market and due to its proximity to the crops, Tozzi Alimentos began its activities with the production of jams and jellies, later adding other canned products such as olives, mushrooms, pickles, capers, cucumbers and spring onions. These with the Tozzi brand and their customers' own brands.

PRODUCTS

Produced with seriousness and determination, Tozzi products have already conquered the national market and are present in more than 10,000 points of sale throughout Brazil.

In addition to investments in processes, training and research, sustainability is also incorporated into the entire system through water and effluent treatment. All the water used in the industrialization process is returned to nature without contamination, guaranteeing the necessary care for the environment.

With a vision of the future, constant development and the aim of building a better tomorrow, Tozzi Alimentos is pleased to be among the largest companies in the segment. This is because it was built with a lot of planning, entrepreneurship, drive and dedication, based on the daily challenge of always doing the best.
