

## COMPANY

Dikoko was founded with the purpose of bringing natural and sustainable coconut-based products to the world, valuing Brazilian origin and generating a positive impact throughout the value chain. Created with the mission of uniting quality, social responsibility and respect for the environment, the company operates from harvesting to export, guaranteeing traceability and excellence at every stage.

With a strong focus on innovation and long-term partnerships, Dikoko promotes the development of local communities and delivers products to the global market that reflect authenticity, purity and a genuine commitment to a healthier and more balanced future for people and the planet.

## PRODUCTS

Dikoko is the second largest coconut producer in Latin America in planted area, standing out for its fully vertically integrated operation. The company owns plantations, processing units and strategically located distribution centers, which guarantees total control of the production chain, continuous supply and strict compliance with deadlines and contracts.

Our products adhere to the highest international standards of quality and food safety, certified by FSSC 22000, Kosher, Halal, and HACCP standards. This integrated structure ensures complete traceability, consistency of supply, and sustainability at every stage of the production process.

Combining operational efficiency, technical excellence, and socio-environmental responsibility, Dikoko delivers premium coconut derivatives with superior quality, logistical reliability, and excellent cost-benefit ratio. This solidity positions us as a global benchmark in natural, sustainable, and responsibly produced products, strengthening long-term partnerships with clients and distributors in various markets.
