COMPANY

GSA - Gama Sucos e Alimentos - was founded in 1984, and in 2002, already under the command of the young entrepreneur Sandro Marques Scodro, it started to stand out in the regional and national market. Since its origin, several factors have always been part of GSA's principles: Technological innovation; Commitment to human values; Transparency in business transactions; Respect for the environment.

Currently we have a national presence with our brands Refreskant and Sandella, and we export to some countries. In our brands we have investments for publicizing and reaching new markets. We are also specialists in private labels in Brazil and we have several clients such as the Carrefour Group, Unilever, Lojas Americanas, Azul Linhas Aéreas, Cencosud - in the Bretas and Prezunic flags, as well as industries such as Caramuru Alimentos, among others.
