

**TAPIOCA FLOUR**

## COMPANY

Amazonia Space has this name because it is an Amazonian space, where we celebrate the gastronomic culture of the Amazon and seek to share it with Brazil and the world. We are a small Amazonian food industry that uses ingredients from family farming, where our mission is to provide people with the best experience with the flavors and sensations that Amazonian ingredients offer.

In addition to producing with sustainable practices, we help to preserve the environment and contribute to generating jobs and income in the Amazon region.
