

# FRUITS AND VEGETABLES

## COMPANY

We are Yellow Passion Fruit growers in Currais Novo/RN. Our production is concerned with offering a good quality product with technical assistance, taking due care with pest control.

Our greatest asset is the consumer's health, and we are constantly striving to improve the quality of our products so that our customers are satisfied.

The passion fruit tree (*Passiflora edulis*) is a climbing plant that belongs to the Passifloraceae family and is native to Brazil.

## PRODUCTS

NCM 0810.90.15

The yellow passion fruit is harvested with the correct ripeness after being selected and sanitized right from the farm to the consumer.

The passion fruit produced at Sonho Meu farm has very refreshing flavors, as it is produced in the hinterland region of Rio Grande do Norte. It has a citrus aroma, as well as a mild sweetness and light acidity, being a fruit with a lot of pulp, in addition to its golden color that catches the eye of anyone who sees it.

Passion fruit is a fruit that originated in tropical America and has more than 150 species in Brazil. Its name is of Tupi origin and means "gourd-shaped food". As a fruit with great nutritional value, with B-complex vitamins and vitamin C, passion fruit stands out for being a versatile product that is widely sold in the food and cosmetics industries.
