PECAN NUT

COMPANY

We currently have a modern structure, aimed at meeting the strictest standards of excellence and good manufacturing practices, required by customers and the market in general.

With competence to sell nut in natura properly prepared for direct consumption, as well as in more elaborate preparations, such as nut with chocolate, among others (check on our website) the company has been growing and bringing the flavor of pecan to the most varied and distant markets.

PRODUCTS

NCM 0802.32.00

Aiming at the future, we are visualizing new gastronomic applications for pecan, which we believe will bring flavor and health to consumers, as well as provide new income opportunities for industries, bakeries, natural products houses, among other customers.

They are whole nuts indicated for consumption in natura, as well as for decorating pies, sweets, cakes and salads. Natural product, without preservative. Does not contain gluten.
