COMPANY

We follow a tradition and inherit a gift! The love of land, of cultivation, and of good relationships. Glaucio Eugenio Figueiredo is the son of a rural producer and part of a family of farming tradition. At the age of 22 he took over the management of some family properties, and in the 90s he inherited the Padre Vitor/Invernada Grande property.

Since then it has been striving to maintain and expand its estate and currently owns and leases over 370ha of coffee. All the areas are located in the South of Minas Gerais, and also include Legal Reserve and Permanent Preservation Areas. In 2017, the producer began preparing the fifth generation, introducing them to the universe of coffees and allowing his daughter to accompany him in his journey to manage and conduct his properties.
