COMPANY

Café Minelis is a family business that produces and roasts specialty coffees. Our farm, located in the city of Brasília in central Brazil, has been producing coffee since 2003 and has won important awards for the quality of its coffee and the sustainability of its production.

The region where Minelis coffee is produced, with its high-altitude tropical climate, offers excellent conditions for the production of specialty coffees.

Our farm, with an average altitude of 1220m, has excelled in the production of Arabica coffees.

Throughout the production process, our products follow rigorous quality standards to provide the end consumer with a pleasurable sensory experience.

PRODUCTS

Our roasted coffees are known for their striking aroma, extreme sweetness and balanced citric acidity. Depending on the stage of ripeness of the fruit and the degree of roasting, we offer coffees with a variety of sensory attributes, including cane molasses, chocolate, caramel, almonds and red fruits.

We also sell green Specialty Coffees (unroasted), produced at Fazenda Novo Horizonte.

Fazenda Novo Horizonte has won important competitions in Brazil, such as the Ernesto Illy Sustainable Quality Award for Espresso Coffee in 2019, and the Olam Coffee Award for Specialty Coffees in 2021, as well as being among the best coffee samples in the Coffee of the Year Award several times.

We are a company that really understands coffee, from planting to harvesting, drying, selecting the best beans, hand-roasting and final packaging. The result of all this care is a coffee with an intense aroma and sweet flavor, with unique sensory notes from the Brazilian cerrado region.

DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:

Our production varies according to demand. We currently have a production capacity of approximately **1500 kilos of roasted coffee per month**, and **1200 bags (60kg) of green coffee (unroasted)** per year.
