

COFFEE

COMPANY

Ramita Cafés is a specialty coffee micro-roaster, located in Campo Grande - MS, and starting operations in 2021. It was founded by Henrique Janaze, who is a barista, roaster and official coffee taster.

Henrique returned to Campo Grande in mid-2020 and noticed a consumption of specialty coffee from other states. He saw this as an opportunity to found Ramita.

Today, as well as supplying specialty coffee beans to coffee shops and emporiums in the city, Ramita has her own store where she serves end consumers looking for coffee, professional courses and knowledge.

PRODUCTS

NCM 0901.21.10

Our coffees are Arabica and Canefora, scored and each lot selected is roasted in a roasting profile previously built and tested with a lot of discipline and methodology, which guarantees a better sensory result in the cups. Respecting the raw materials and the work of small producers.

Specialty coffee beans from five Brazilian regions. Each bean has a different sensory, representing the diversity of Brazil's terroir:

Rondônia Bean: Woody and cocoa notes, honey, chocolate and banana raisins.

Paraná Bean: Notes of propolis, with the sweetness of raisins and chocolate. Minas Gerais Bean: Notes of molasses, caramel and milk chocolate.

Goiás Bean: Salivating, with orange citrus acidity.

São Paulo Bean: Lightly fruity with a slight malic acidity reminiscent of melon.

Bahia Bean: Sweet and with notes of tahiti lime.

Espirito Santo Bean: Notes of pamonha, floral, black tea and spices.

DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:

PRODUCTION CAPACITY OF 10 TONS PER YEAR, WITHOUT SEASONALITY.

Coffee packets available in 100 g, 200 g and 1 kg sizes.
