## COMPANY

Gold Oriente is a fruit distributor, was born in 2018 focused on the distribution of apples, with quality products and certified suppliers, all planted and harvested with care, to be delivered to its customers fresh and juicy.

The apples supplied by Gold go through a careful buying process to meet the most demanding of the market, with the certification of the best producers in southern Brazil with favorable weather conditions and improved technological processes. With its own logistics operation, it guarantees the ease and safety of all the transportation of our products.

## PRODUCTS

The harvest occurs from January to May, but the apples are available all year round thanks to a system of cold storage. There are several types of the fruit, but the Gala and Fuji apples represent the massive production, with Gala representing 60% of the production and Fuji 40%, according to the Brazilian Association of Apple Producers (ABPM).
