

## FRUIT AND VEGETABLES

## COMPANY

The Cooperative was created in 2018 by producers already organized in an Association, with the aim of expanding the marketing of guava. Starting commercial activities in 2019 on the domestic market, it achieved Geographical Identification and soon after Global.G.A.P. Certification, also starting with exports.

So today, the Cooperative is always looking to improve in order to conquer new spaces, always guaranteeing the satisfaction of our customers and consumers, as well as always guaranteeing the best for its members.

Always seeking the best for our customers, we work with producers who show responsibility in production and consequently with a quality product, always seeking the satisfaction of our consumers.

## PRODUCTS

**NCM 0804.50.10**

Carlópolis guava is known for its unparalleled taste and for being produced sustainably, with reduced use of pesticides, thanks to the careful bagging of the fruit. At COAC, we always strive to offer you the best.

Among our great specialties is the red guava: crunchy, sweet, juicy and highly nutritious. Rich in lycopene, vitamin C, B vitamins, niacin and phosphorus, it is a complete food that combines health and flavor. In response to a worldwide demand for eco-friendly food, we grow tons of guavas throughout the year using practices that respect nature and preserve the environment.

The entire process, from grading to storage, packaging, sales and shipping, is carried out by COAC, guaranteeing quality, safety and, above all, the best taste for those who enjoy this very special fruit.

## DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:

Our monthly production is made up of two different lines: **certified products**, which reach a capacity of **73,520 kg/month**, and **conventional products**, whose production reaches approximately **200,000 kg/month**.
