

HONEY AND BEE DERIVATIVES

COMPANY

APISVIDA was founded in 1994 by a beekeeper family. Since then, it markets and distributes its products in the national and international market. The organic process and production are sustainable and certified by IBD, located in Chapada do Araripe in the state of Ceará.

APISVIDA has one of the most modern manufacturing parks in the segment, with strict quality control, our differential is from the careful choice of raw material to the final product.

With the constant investments in innovation and development, APISVIDA consolidates itself more and more in the market, being present in large networks, distributors and specialized retailers.

DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:

The production capacity varies according to demand, because we have a modern factory park, we have own production of some of the main raw materials and for this reason we do not have seasonality.
