TAPIOCA

COMPANY

Copasul came up with the mission of promoting the strengthening and growth of cooperative members, using a service with excellence to ensure the associated customers satisfaction. Currently, the cooperative has more than 1,600 members and operates in the inputs supply, technical assistance, grain marketing, starch and cotton spinning.

Tapioca COPASUL begins in the field, with the cultivation of cassava made by our cooperates. After harvesting, it undergoes sustainable and careful processing. The result is a high-quality product with natural flavor and aroma.
