

COMPANY

Frutas Wolf Agronegócio was founded in 2020 with the aim of improving fruit sales on the Brazilian market, and with the planting of avocados, a new export window was opened. At the end of 2020, the project to build the Pack House in the city of São Roque de Minas in Minas Gerais began.

It would be a gateway for fruit, both for domestic and foreign trade, and would also provide an opportunity for the city to grow.

PRODUCTS

NCM 0804.40.00

Avocado Frutas Wolf extra virgin olive oil is a 100% natural product, extracted by mechanical processes on our farm, guaranteeing the product's origin and provenance. Avocado oil has a delicate flavor and can be used at high temperatures without losing its properties.

Extracted 100% from the pulp of Avocado Frutas Wolf, it is classified as extra virgin olive oil due to its cold extraction process. Free from additives and preservatives, it has an acidity of less than 0.5%, a bright dark green color, a fruity taste and a mild fruit smell.

Avocado Frutas Wolf Oil is rich in vitamin A, E, fatty acids and natural antioxidants. Full of good fats, the most active of which are lecithins, phytosterols (beta-sitosterol) and monounsaturated fats that help prevent disease and fight cholesterol. Avocado Frutas Wolf Oil is considered a functional oil, which means that because it contains omegas 3, 6 and 9, functional oils are anti-inflammatory and help regulate hormones.

DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:

WE ARE ABLE TO DIFFERENTIATE OUR AVOCADOS BY SIZE/WEIGHT WHEN SORTING THEM.

Our olive oils come in 250ml and 500ml, and we can also differentiate them by their packaging.
