COFFEE

COMPANY

I'm Patrícia Borges, a specialty coffee producer in the district of Ferreiras, in São Gonçalo do Sapucaí, in the Mantiqueira region of Minas Gerais. When my father died in 1998, I received my share of the inheritance and rented out my brothers' share. I started working with coffee, renewing the plantations and planting new varieties.

I worked with my brothers for a few years, during which time I trained with Senar courses to improve the way I managed and cared for the soil. In 2017 I bought my brothers' shares and today I have the help of my children who, even though they are studying, always take part in some of the decisions on the property. We produce very high quality specialty coffees.
