## COMPANY

Our story begins in the mid-1970s when my father, who is passionate about coffee, started his plantations. I acquired my first property 25 years ago. I have always produced superb drinking coffee and, after learning more about the coffee processes from planting to cup, I have looked to specialize each year.

Thus, the Café Renovo company was formed. Established at a time when the consumption of specialty coffees was ever-increasing. This was an opportunity to generate added value. I created the brand to provide consumers with quality and affordable coffee. "My job is to make sure that we have the best coffee each year"
