

# COFFEE

## COMPANY

The story of many Brazilians is similar to ours. Several families have established themselves in coffee growing, whether planting, selling or roasting this bean that originated in Ethiopia, but is Brazilian at heart.

Café Toledo Azzini was born out of a dream to produce quality coffee while respecting the entire sustainable process.

Café Toledo Azzini is a high quality coffee where we choose the ripest beans to be processed with great care and love.

Discover the exceptional flavor and enveloping aromas that make our coffee a true sensory journey.

## PRODUCTS

Coffee has always been very present in the lives of Brazilians. Coffee growing was the country's main economic activity for decades and is still one of Brazil's main sources of income, always featuring among the main exports. Brazil remains by far the world's largest producer of the grain.

We believe that the main difference found in the best coffees is the human factor. There is only a good product when there is a prepared farmer, careful transportation and proper roasting. This is how we select our best coffee beans. We know every inch of our plantation, we carefully choose the best lots (in the form of micro-lots) and we roast them by hand, trying to extract the maximum flavor and aroma from each type of coffee. To preserve the drink's flavor and aroma, we always send freshly roasted coffee.

- Altitude 1,000 mts
- 100% Arabica
- Matas de Minas
