

COMPANY

Founded in 2020, OriginBean was developed by the brothers couple from Valério family, representing the fourth generation of producers. Passionate about the field and the people who work in it, they seek to improve the production chain of specialty coffees, strengthening other producers, adding value to their products through specialized qualification, traceability and sustainability.

Specialty coffees, produced with great affection and love by the small producers of the Mantiqueira de Minas region.

PRODUCTS

NCM 09.0111. 10

We are located in Mantiqueira de Minas, a microregion that was recognized as a designation of origin in 2020.

Appreciation of the rural producer, we tell their true stories, including the stories of the farm; get to know all the coffee traceability, from: origin, name of the producer, region, city, variety, altitude, score, process, certification.

Transparency in values, both for the buyer and for the producer. We make a point of showing all the fees that have been charged up to the final price; Fair final price paid to the producer; for larger batches like blends, we tell the story of each producer and the coffee behind the batch.

DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:

Production capacity: initially 640 bags 16 up, type 2/3 of specialty coffees with score 84+ through the SCA methodology.

Seasonality: biannual, but depending on the demand can be done monthly.
