

**JUICES AND PRESERVES
FROM FRUITS**

COMPANY

Itaberry Frutas Finas Ltda. was founded on December 13th, 2012 and took over by purchase the company NICEBERRY that belonged to an Argentine group and that already had extensive knowledge in the production of blueberries.

The production in Brazil was due to the microclimate of the UHE-ITÁ lake, a differential that provides a higher brix degree than in other locations.

PRODUCTS

NCM 2106.90.30

Our main goal was to produce the SUPERFRUITS to be dehydrated and transformed into food ingredients for the industry, which has already occurred and has become a high quality product called: SOLUBLE FOOD SUPPLEMENT BASED ON HYDROLYZED COLLAGEN WITH BLUEBERRY AND HYALURONIC ACID BERRY FLAVOR ENRICHED WITH VITAMINS. That is the new product.

We are in a constant process of innovation and new products with innovative ingredients will be on the market within a year.

Can with 280 grams or boxes with 15 sachets of 11 grams of SOLUBLE FOOD SUPPLEMENT BASED ON HYDROLYZED COLLAGEN WITH BLUEBERRY AND HYALURONIC ACID BERRY FLAVOR ENRICHED WITH VITAMINS. SELL-E brand. Contains dried blueberries.

**Food supplement
with high antioxidant
power.**

DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:

Although blueberries are seasonal, the company also buys and imports from other producers. The other ingredients are not seasonal.
