

BRAZIL NUT

COMPANY

It all began in trips to the Amazon Rainforest, getting to know the rich fauna and flora, and also its population, which brings even more wealth to this place. Soon sprouting a feeling of taking to each of our customers a piece of this **STANDING FOREST**, thus taking what nature has the purest and being able to value the work of each of the residents of the region.

Floresta em Pé, it is more than a company, it is a purpose, seeking natural and cultural preservation, leaving this legacy to the next generations.

PRODUCTS

NCM 0801.2200

Fresh organic chestnuts. They are collected by local communities through sustainable extractivism. Thus, ensuring the protection of the soil and trees of the Amazon rainforest. After the collection they go through the manual selection and the entire process of cleaning and handmade breaking, thus ensuring a humanized product that generates income for hundreds of families.

ORGANIC & HANDMADE CHESTNUT

SUSTAINABLE Originating in the Brazilian Amazon, our Brazil nut helps generate income for hundreds of families, contributing to the local economy, while teaching them to live consciously from the fruits of the Amazon Forest, extracting them sustainably.

FRESH AND CRISPY Our machine-free process and our modified atmosphere technology packaging ensure fresh chestnuts and no added salt or preservatives, from nature to your home.
