

**FRUIT AND
VEGETABLES**

COMPANY

Citrus production began in 1989 in Montenegro (RS), when the patriarch of the family cultivated the first orchards with a passion for agriculture. In 2017 the Tanboa brand was born, the result of the dedicated work and vision of the three sons, who together with their families continue the legacy with unity and prosperity.

Today, Tanboa is the benchmark for mandarins in Brazil, recognized for its naturally sweet taste, juiciness and superior quality. With tradition, innovation and commitment, we continue to bring people together through care at every stage, from the orchard to the customer.

Bergamot, also known as mandarin or tangerine, is the fruit that conquers for its taste and practicality. With a thin, easy-to-peel peel, it reveals juicy buds with a perfect balance between sweetness and slight acidity. With a vibrant color, from orange to reddish-orange, it enchants with its appearance and freshness. Rich in vitamin C, antioxidants and fiber, it strengthens immunity and promotes health in a natural way. A delicious, nutritious and versatile fruit, perfect for fresh consumption, in juices or recipes. Tanboa delivers this experience with superior quality and care at every stage, from the orchard to you.

Family farming combined with cutting-edge technology: Traditional care in cultivation is added to modern irrigation and fertilization systems, resulting in healthier, more nutritious and tastier fruit.

Quality control in every detail: From planting to harvesting and selection, all stages are rigorously monitored, ensuring that the fruit is always juicy, fresh and excellent.

Perfect climate in Vale do Caí (Montenegro-RS): A privileged region whose fertile soil and unique climatic conditions favor the development of naturally sweet fruit, reinforcing the distinctiveness and authenticity of our products.
