

COMPANY

Candeia Olive Oil is a family project and its history is linked to the establishment of the Capão da Cruz olive grove in the municipality of Cachoeira do Sul, in the central region of Rio Grande do Sul.

It was born from the dream of developing sustainable and innovative agribusiness in Brazil. Imbued with this purpose, in 2012 we acquired a 24-hectare property and established the strategic partnerships that resulted, five years later, in the establishment of the olive grove with almost 5,000 planted trees of the Arbequina, Arbosana, Koroneiki and Picual varieties.

PRODUCTS

NCM 1509.20.00

Candeia Olive Oil is a premium extra virgin olive oil of high quality and purity, which conveys the freshness of freshly processed fruit. It is

produced from selected olives, which undergo a single temperature-controlled extraction. It's a superfood that combines pleasure and health, adding flavor and aroma to any other food you combine it with. In our first commercial vintage, we presented the monovarietals Arbequina, Arbosana and Koroneiki, each with its own unique sensory notes.

In its first commercial harvest in 2023, Candeia Olive Oil received the RS Origin and Quality Premium Products Seal: Awarded by the Rio Grande do Sul State Government's Innovation, Science and Technology Secretariat in partnership with the Brazilian Olive Growing Institute - IBRAOLIVA, this seal recognizes the excellence and authenticity of the extra virgin olive oils produced in the state.

DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:

Our olive grove has 15 hectares and almost 5,000 trees planted. We expect to harvest 50 to 100 tons of fruit over the next few years and produce 5,000 to 10,000 liters of olive oil each harvest. The olive harvest in Brazil takes place between the months of February and March each year and with 100% manual harvesting we guarantee healthy fruit with no defects.
