PRODUCTS**

COMPANY

Tropdan was born out of a need and a vision in the 2000s by Orival and Vera Dan, a couple of banana growers from the Ribeira Valley who faced the challenge of dealing with surplus banana production. Instead of letting the fruit go to waste, they saw an opportunity: to turn what could be wasted into a range of healthy and innovative banana-based products.

Today, we are known for producing 100% natural food, with no added preservatives, sugar, gluten, lactose or artificial colorings.

All our products are rich in fiber and vitamins, prioritizing the health and well-being of the consumer.
