PRODUCTS

Terra Nova presents a carefully curated portfolio, standing out for the diversity and quality of its products. Among our fine sparkling wines, we offer labels in the Brut Branco, Brut Rosé, Demi-Sec, Moscato Branco, and Moscato Rosé categories, each created to provide unique experiences in aroma, freshness, and elegance.

Complementing the line, we offer the sparkling Moscatel Branco and Moscatel Rosé wines, perfect for those seeking lightness, smoothness, and a refreshing drink for any occasion.

In addition to wines, we also produce 100% pure grape juices, available in White, Rosé, and Red versions, preserving all the natural flavor of the fruit and the purity of our terroir.

Terra Nova products stand out for their fresh and vibrant wines, made from grapes harvested throughout the year: a unique characteristic that guarantees consistency, quality, and the ability to respond quickly to market trends.

This productive dynamic allows for continuous innovation and greater alignment with consumer preferences, resulting in modern, balanced, and always up-to-date labels.

Furthermore, the combination of production efficiency, distinctive terroir, and technical expertise provides excellent value for money, making Terra Nova products a smart choice for those seeking superior quality at an affordable price.
