

## COMPANY

Fazenda Soul Leve is an agro-industry located in the rural area of Pedro Gomes, Mato Grosso do Sul, dedicated to the artisanal production of natural and healthy foods. Founded by Juliana Trombini, the company arose from a personal need: to find food alternatives for her lactose intolerance.

This dedication has led to the creation of products such as 100% pure native turmeric of controlled origin. The entire process is handmade and sustainable, with certifications that prove quality, positive social impact and community engagement. With national visibility and growing recognition, it is a true example of inspiring entrepreneurship.

## PRODUCTS

**NCM 0910.30.00**

**Shot Line:** Shot Capsules are ideal for those looking for a healthy and productive start to the day. It combines turmeric and selected spices, offering benefits for well-being, digestion, immunity and daily energy.

**Turmeric:** Grown on our farm in the Pantanal savannah, turmeric is harvested with care and pre-selection of the best rhizomes, guaranteeing purity and quality. Rich in curcumin, it has antioxidant, anti-inflammatory and antimicrobial properties that have been recognized by traditional medicine for centuries.

We produce natural and artisanal foods, free from additives and preservatives, including 100% pure native turmeric. Our functional products revive tradition, offer quality nutrition and promote health and well-being.

## DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:

Our production is artisanal and scalable, made in small batches that guarantee the maintenance of quality and the excellence of a handmade product. Turmeric is grown as an annual crop, but we have enough stock to ensure a continuous supply to our customers.
