Our açai is produced in small batches, preserving the fruit's natural flavor, rich texture and nutritional benefits. Each raw material is carefully selected, with no dyes, artificial additives or industrial flavorings, guaranteeing a pure, artisanal product.

With a concentration of 66% solids, our açai stands out for its smooth, creamy texture and intense, deep and memorable flavor, which wins over demanding palates on both the national and international markets. The formula has been carefully crafted to contain only açai, guaraná syrup and sugar, offering authenticity, purity and simplicity, without compromising the intensity of the flavor or the nutrients of the fruit. This balance between flavor, texture and nutritional benefits reflects all the artisanal care we put into each batch, transforming the consumption of açai into a unique and unforgettable experience.

NutriBerry is looking to expand its global presence by focusing on excellence, reliability and building long-lasting business partnerships. Whether you are a distributor, importer or interested in developing your own brand, we are prepared to collaborate with products that enhance the taste, authenticity and artisanal care that we dedicate to açai.
