COMPANY

FUMEL is an Agroindustry that aggregates values in the products of small rural producers in the state of Rio de Janeiro. The company maintains long-term partnerships with farmers, with stable and fair prices, which enables the sustainable growth of family farming.

It all started with its own production, making only Banana Raisins. With the passage of time and the increase in demand, it was necessary to seek farmers from the region and other regions of the state of Rio de Janeiro to develop partnerships with agroindustry. In addition to orchards, beekeeping was introduced for pollination and production of honey and propolis.

PRODUCTS

HONEY AND PROPOLIS

FUMEL processes honey from flowers typical of tropical cultivation, with wide diversity of taste, color and aromas, and can thus serve several types of consumers.

The warehouse also processes green propolis, from the rosemary field (exclusive species of the Brazilian Atlantic Forest, and only vegetable used by bees for the production of this variety of propolis).

CANDIES WITHOUT ADDED SUGAR, 100% NATURAL

Line of traditionally cultural candies differentiated through delicious combinations of nature itself. All candies are natural, gluten-free, lactose-free and preservative-free. Produced especially with bananas from organic crops in blends with guava, pineapple fig, cinnamon and cereals/seeds. A perfect option for practical and healthy dessert or snack.

DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:

Because they are 100% fruit and seasonal flowering products, the demand for both candies and honey and propolis, must be previously programmed to be met during between harvests. The company has a long-term, fair and stable pricing agreement with farmers. Producers grow with the company and new partnerships are evaluated as demand increases.
