

# BANTÔ

**VARIED CHIPS**

## COMPANY

Bantô is a Brazilian healthy food brand created to make eating well simple, light and pleasurable. We operate in the natural vegetable snack market, produced with just three ingredients: real vegetables, coconut oil and Himalayan pink salt.

We value small producers, sustainability and the authenticity of Brazilianness. With production structured under Good Manufacturing Practices, we are present in more than 19 Brazilian states and have begun international expansion through projects such as AgroBR and participation in global fairs.

## PRODUCTS

Bantô specializes in producing 100% natural vegetable snacks made with selected vegetables, coconut oil and Himalayan pink salt. They are crunchy, vegan, gluten-free snacks that are completely free of chemical additives, colorings and preservatives. The portfolio includes banana, white sweet potato, purple sweet potato, baroa potato, yam, cassava and a potato mix. With a shelf life of 240 days, trilingual labels and 40g packs developed especially for export, Bantô meets the growing global demand for healthy and clean label products.

The snacks stand out for their clean label formulation, made up of just three ingredients, real vegetables, coconut oil and Himalayan pink salt, as well as offering a crunchy texture and natural flavor, preserving the authenticity of each ingredient. Another differential is the strong Brazilian appeal, present in the use of the country's traditional vegetables and the partnership with small producers, guaranteeing quality, traceability and a unique cultural identity.
