PRODUCTS

Melbras offers the market economical packaging, such as 285kg barrels and 25kg bucket of conventional, organic and Fair Trade honey from several flowerings. The production processes follow national and international quality standards.

The product of internationally recognized quality makes Melbras a reference in the market. More than 5000 tons of honey are exported annually to the four corners of the planet, with a large part of the production destined for Europe, the United States, Canada and Asia. The conquest of new markets places us in front of the responsibility of offering a product with a high-quality standard, in addition to contributing to the socioeconomic development of our country, proud to be able to benefit more than 800 families of beekeepers spread throughout Brazil.

Organic, conventional, fair trade, Naturland honey, White, extra light amber, light amber, ambar, mono and poly floral colors.

**TASTE AND QUALITY IN THE
