

**Mel Cuesta**  
Doce Tesouro

**HONEY AND  
BEE DERIVATIVES**

## COMPANY

Mel Cuesta Doce Tesouro is located in the Cuesta Paulista region, in the interior of the state of São Paulo, and specializes in the production of Apis mellifera bee honey, with the production of eucalyptus, wildflower and orange blossom honey. It has a partnership in the production of Propolis, Pollen and Other Honey Flowers.

A company that is attentive to innovation and plans its actions with an eye on the market. The value is respect and appreciation for the "bees", our collaborators and universal pollinators, and for the environment in which they live. Love and dedication to work. Preserve quality and safety in products, Ethics and Integrity, Determination and Persistence. Through these natural foods produced by our bees, we offer customers the experience of improving their quality of life in a healthy, sweet and incomparable way.

## PRODUCTS

Mel Cuesta products are natural products, extracted by hand, in a 100% humanized production, with bees management and preservation of the environment. The products come from different flowers, which gives them different flavors and aromas. They are federally certified, which makes it possible to distribute food with guaranteed quality, a modern label and a registered trademark.

**Eucalyptus, wild and orange blossoms, Brazilian treasures honey, grape vine blossom, mastic tree, coffee and bracatinga honeydew and propolis.**
