

## COMPANY

Our own industrial plant is located in the district of Novo Remanso, municipality of Itacoatiara, in the state of Amazonas. Geographically, we are in the heart of the Amazon rainforest, in the northern region of Brazil, 230 km from the capital port of Manaus.

Moreover, we have a representative office in Manaus, and as part of our planning, we intend to open a business office in conjunction with a distribution center in the city of São Paulo, capital.

## PRODUCTS

**NCM 0811.90.00**

We have selected the best of the Amazon rainforest for you to savor. Our pulps have all the essence of the forest in the aroma, flavor and the way it is produced, always respecting good practices for the preservation of the environment. Our producers in the region have as a priority to preserve the forest with mechanized cultivation practices, control in the use of pesticides and the cultural treatment of the Amazon man.

Our pineapple has an unparalleled flavor, sweet like honey, with an attractive aroma and very low acidity. Our pulps are pure, free of gluten, dyes, preservatives and all are pasteurized. A production cared for directly by the family. Each member of the family has a direct stake in the production and cultivation. In this photo, we can see a pineapple plantation with its production in full activity.

If you would like more information on the marketing of our products, please do not hesitate to contact our sales manager at busch@unifruit.com.br. We will be ready to assist you and provide you with all the necessary information.
