

Bela Vista
CAFÉ ESPECIAL

BRAZILIAN COFFEE

COMPANY

Café Especial Bela Vista was born in 2023, pioneers in specialty coffee in Rio Novo do Sul, Espírito Santo, with the purpose of valuing the quality and identity of Capixaba coffee. Founded by Carolini and Tiago, the venture combines family tradition, sustainable agriculture, and innovation, bringing specialty Conilon to new markets.

Our commitment is to represent the strength of family farming, the excellence of Brazilian coffee, and female leadership in agribusiness. With a focus on traceability, quality, and sustainability, we seek to expand our horizons, connecting international producers and consumers and bringing the essence of Espírito Santo to the world, from bean to cup.

PRODUCTS

NCM 0901.11.10

Café Especial Bela Vista is produced in Rio Novo do Sul, Espírito Santo, Brazil, from 100% Conilon (Canephora) beans, cultivated by family farmers. Processed using the Honey method, it achieves 84 points in sensory evaluation and has a sieve classification of 14 above, characteristics that highlight its quality and differentiation in the specialty coffee market. Its sensory profile is balanced and distinctive, with notes of cocoa, spices, caramel, molasses, and honey. It is available in roasted bean and green coffee versions, valuing the identity and quality of Capixaba Conilon.

The portfolio also includes Coffee Cachaça (700 ml), an artisanal pot still spirit infused with Espírito Santo Conilon coffee, combining tradition and authenticity; Drip Coffee, in individual servings, offering practicality and quality in preparation; and Traditional Superior Coffee (500 g), produced by family farmers, 100% pure, free of impurities, and oven-dried, ideal for daily consumption.

The production values regional identity, female leadership, and the strengthening of family farming. In addition to Fairtrade certification, the brand holds Sustainability and Family Farming seals, reinforcing its commitment to responsible practices, traceability, and producer appreciation. These differentiators add value to the products and highlight the commitment to quality, environmental preservation, and sustainable development of the production chain.

DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:

The property has a production capacity of up to 100 coffee sacks per year, the result of dedicated work in cultivation, management, and care at all stages of production, aiming to preserve the quality of the beans and the special characteristics of the coffee.
