

# COFFEE

## COMPANY

Thinking back, the Santo Antônio church has always been a part of our lives. We were members of the Santo Antônio church in Cordeirópolis when we met, and it's where we got married and baptized our 3 daughters.

We moved to a small farm in Santana to work the land, where we learned how to grow coffee. Once again, we are a part of the Santo Antônio church and fulfilling our dream of residing on the farm and living on what we grow, so we decided to set up a coffee roasting plant to continue our dream.

## PRODUCTS

And throughout the time of preparing the documents and packaging, we decided to name it Santo Antônio Café because it was only through the intercession of Santo Antônio to God that allowed us to get here. Most importantly, we also get to deliver our coffee made with lots of love to everyone's homes.
