FRUIT JUICES AND PREPARATIONS

PRODUCTS

For over two decades, Bella Terra Alimentos has been passionately dedicated to bringing you the best of tropical fruits. Our journey began in 1992, when we opened our company under the name Fruteza, marking the start of a lasting commitment to excellence in the preparation and commercialization of tropical fruit pulps.

We elevate the gastronomic experience by offering a variety of carefully selected products, including the freshness of Pineapple, the intensity of Acerola, the juiciness of Guava, the sweetness of Mango, the exuberance of Passion Fruit, and the uniqueness of green Acerola.

Bella Terra Alimentos specializes in the production of high-quality tropical fruit ingredients for the global food industry. Its portfolio includes whole pulps (NFC), concentrated, clarified, and ultrafiltered juices, made from fruits such as pineapple, green and ripe acerola, guava, mango, passion fruit, and watermelon.

The company stands out for its use of advanced processing technologies, with an emphasis on ultrafiltration, in addition to offering Just-in-Time logistics solutions, aseptic and frozen packaging options, and customized toll processing services. Quality, safety, and traceability are priorities at all stages of production. Its products are natural, with no added additives, and the company maintains rigorous quality and traceability controls, following standards that ensure product reliability. In addition to developing and manufacturing its own portfolio, Bella Terra Alimentos offers tailor-made processing solutions for companies that wish to transform their raw materials into high value-added products.

Its industrial structure allows it to meet different needs, from pulping to processing, packaging, and labeling, with services adapted to each client's specifications. The commitment to excellence is present throughout the production chain, from the careful selection of fruits to processing and final delivery, ensuring efficient and personalized solutions to meet market demands.

NCM Code: 2008.99.00 - Pulp
NCM Code: 2009.89.90 - Concentrated Juice
NCM Code: 2009.49.00 - Concentrated Pineapple Juice

DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:

Our equipment has a processing capacity of 10 tons per hour. Monthly production capacity will depend on the type of fruit and the type of process. We can operate up to 3 shifts per day to meet all demand. We make whole, concentrated, and ultrafiltered products.
