

açai brasil
PREMIUM AÇAÍ

**AÇAÍ FROM
BRAZIL**

COMPANY

Açaí Brasil is a frozen food company that has been operating for over 15 years and was founded in 2009 in Serra/ES. Our story was born from the passion of a family of açaí traders and the visionary potential of the Amazonian superfruit, at a time when its consumption in Southeast Brazil was still a "blue ocean".

We serve franchises, ice cream parlors, snack bars and açaterias with products with a remarkable flavor. Our success led to the creation of the FRUTIZE sub-brand, with sorbets and sherbets in tropical Brazilian flavors such as cupuaçu, passion fruit, pitaya, mango, coconut, red fruit and strawberry. This expansion reflects Açaí Brasil's commitment to innovation, quality and consumer satisfaction.

PRODUCTS

NCM 0811.90.00

Açaí Brasil offers a premium and diversified portfolio, based on naturalness and adaptability.

Our Premium Açaí range is made with concentrated, high-quality açaí pulp, minimally processed to preserve all the essential benefits of the superfruit. It is a product with a low added sugar content, guaranteeing an authentic, delicious and healthy experience. It is also gluten-free, lactose-free, vegan and free of trans fats.

Expanding the concept of healthy and inclusive eating, we have developed Açaí Fit, a highly exclusive recipe with only 1.3g of sugar per serving. Its composition is pure fruit: only açaí, apple and banana, with no added dyes or flavorings. Ideal for restrictive diets and for consumers with specific allergies.

Our range of FRUTIZE Sorbets and Sherbets is where tropical fruits are the real protagonists. With exclusive formulations that contain up to 3x more fruit than a juice, these products are made with water or milk (depending on the flavor) and stand out for being fat-free. All the color and flavor is 100% natural, coming from the fruit, without the need for artificial flavors or other chemicals. We currently offer flavors such as Mango (lactose-free), Coconut, Cupuaçu and Passion Fruit - all naturally gluten-free, low in added sugar, fat and sodium.

DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:

Currently, our monthly production capacity ranges from 80 to 120 tons, depending on the product mix and seasonal needs.

Our facilities include modern and efficient cold rooms, with a total capacity to hold up to 250 tons of finished product for storage. This strategic storage capacity allows us to manage peaks in demand and ensure a continuous and reliable supply, which is essential for the international market.
