

TRANSMAR
O MELHOR DO MAR PARA VOCÊ

**FISH AND
SEAFOOD**

COMPANY

Transmar is a Brazilian company specializing in the capture, processing, marketing, and export of high-quality fish. With its own fishing fleet and integrated operations, it serves both national and international markets, supplying products to industries, distributors, retailers, food service, and importers.

Its purpose is to offer fish with excellence, food safety, and responsible sourcing, contributing to the sustainable development of fishing activities. Throughout its history, it has established itself as a benchmark in the sector due to its reliable supply, product quality, and commitment to customer satisfaction.

PRODUCTS

NCM 0302.39.00

Transmar specializes in supplying premium fish caught in the open sea, offering excellent products such as Bigeye Fresh Tuna, Yellowfin Fresh Tuna, Swordfish, and Mackerel. Each fish is rigorously selected to ensure maximum freshness, quality, flavor, and food safety, meeting the highest market standards.

With its own fishing fleet, Transmar exercises complete control over all stages of the operation, from capture to delivery to the customer. This structure ensures full traceability, greater supply regularity, and a strict quality standard in all products.

Our operation is supported by a continuously monitored cold chain, preserving the natural characteristics of the fish, such as freshness, texture, color, and flavor. Furthermore, we operate with a permanent commitment to responsible fishing and sustainability practices, ensuring a reliable origin aligned with the demands of both national and international markets.

With continuous supply capacity, efficient logistics, and total production control, we serve industries, distributors, wholesalers, retail chains, food service, and importers seeking a solid partner, premium products, and excellence in supply.

DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:

**We have a production
capacity of up to 50 tons per
month, ensuring scale,
regularity, and security in
supply.**
