**DISTILLED GIN
AND VODKA**

COMPANY

We are the first independent gin and vodka distillery in Mato Grosso do Sul, combining technology, local ingredients, and a rigorous artisanal process to create signature beverages recognized nationally and internationally. Our Caravela Gin, inspired by the riches of the Pantanal wetlands, was voted the best in the world by the Concours Mondial de Bruxelles (CMB) in 2024, in addition to receiving three other awards at the same competition, one of the most respected in the sector.

The event, founded in 1994, is a global benchmark in the sector, known for its blind judging by a panel of experts, with the aim of identifying and promoting the best products without commercial bias. The medals awarded by the CMB help to highlight the quality of wines and spirits in global markets.

GIN CARAVELA: Voted the best Gin in the world by the Brussels World Competition. With a composition rich in botanicals from the Pantanal and Cerrado biomes, it stands out for its unique aromatic profile that reflects Brazilian biodiversity. Local ingredients, such as guavira, yerba mate, and baru seeds, infuse the essence of the region. Produced in a copper pot still using traditional techniques, Caravela Gin is 100% Brazilian, combining artisanal excellence with local culture and nature. - 48% Alcohol Content - 14 Natural Ingredients - Hydrated Cereal Ethanol - Distilled in a Copper Still and Column.

Gold Medal - CMB 2023 - Grand Gold Medal and Gin Revelation - CMB 2024 - Silver Medal - CMB Brazil 2024 - Silver Medal - CMB 2025

CARAVELA VODKA: Handcrafted from food-grade grain alcohol, it undergoes double distillation in a copper still and column still, ensuring high purity. After distillation, it is filtered through activated charcoal and rested in stainless steel tanks, resulting in a smooth, neutral, and high-quality beverage. Each step reinforces the care and excellence of the production process. With 40% alcohol content, it stands out for its artisanal production, copper distillation, and careful filtration, offering a neutral aroma and flavor. Ingredients: hydrated ethanol from grains and demineralized water.

Gold Medal - CMB 2023 - Grand Gold Medal and Gin Revelation - CMB 2024 - Silver Medal - CMB Brazil 2024 - Silver Medal - CMB 2025.

DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:
