COCOA AND CHOCOLATES

COMPANY

Founded in 2017 as a social impact business, Dengo is an ethical chocolate brand that creates irresistible blends by combining flavor with health and turning producers into protagonists.

Our primary commitment is to generate a decent income for small and mid-sized cocoa producers in southern Bahia.

This is why we promote a network of small and mid-sized producers who consciously cultivate quality cocoa and coffee. Folks who, like us, believe in building wealth and conserving the forest.
