

COMPANY

Martuna Pescados is a company that fosters the local economy, operating with its own boats in the specific catch of Tuna and Mecca, processing and selling high quality fish, in Brazil and abroad. As a specialty, the company conducts its fisheries through the Horizontal Longline modality, focusing on ocean fishing in a sustainable way, and mainly respecting all aspects of environmental preservation. Currently, it certifies all its fish, through its own processing unit, becoming a reference in the fish segment for the quality presented, and for providing a differentiated experience for seafood lovers.
