

## COMPANY

**Adko** is an innovative company at the forefront of trends and technological advances in food production. Our commitment is to revolutionize the market by introducing an innovative concept that combines change, taste and excellence in the creation of quality food.

We began our journey with spices and condiments, but we have adapted to the needs of our consumers, providing new gastronomic experiences. We offer products that delight the palate, simplifying the culinary journey and generating value for our representatives and resellers.

## PRODUCTS

We would like to highlight a new and exclusive line, with no similarities: **ADKO Crispy Onion Flakes**. This delicacy excels in hamburgers, hot dogs, snacks and at the end of various dishes, pairing perfectly with a variety of flavors. ADKO Cassava Flour (Seasoned Cassava Flour), enriched with the addition of Crispy Onion Flakes, is made from roasted and ground cassava. This crunchy and tasty side dish is a common presence in Brazilian meals and is often served at barbecues, parties and as a complement to dishes based on beans, meat and fish.

**ADKO Tapioca**, made from cassava starch, is popular and versatile in Brazil and can be prepared as a pancake with different fillings. Our range of Granulated or Rolled Fried Garlic, as well as PARRILLA SALT and DRY RUBS, is ideal for finishing dishes and seasoning every day.

**Onion Straw**

### DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:

We are convinced that a healthy life begins with a balanced diet, using high quality products. At ADKO, we produce our products with care, guaranteeing and choosing raw materials carefully and seriously, and adding an extra pinch of affection to the process.

*Our products can naturally vary in color, grain size and other characteristics due to seasonality. These variations reflect the authenticity of each harvest and are influenced by climatic and environmental factors.*
