

## COMPANY

We are the family-run agribusiness Produtos Lilien, specializing in the production of organic teas, organic jams, diet biscuits, and cereal bars. We develop our products with care at every stage of the process, combining attention, quality and commitment to healthier and more responsible eating.

The planting and management are 100% organic and biodynamic. We harvest the raw material manually, then it is selected and carefully tended to. Preserving all the original color, flavor, and aroma! Always aiming for your well-being and that of nature. We've been producing health since 2014!

## PRODUCTS

We produce organic teas with extreme care at every stage of the process. The planting and management are 100% organic and biodynamic, with manual harvesting of the raw material. After harvesting, the plants undergo a rigorous selection and specific dehydration process, developed to fully preserve their natural color, flavor, and aroma. Among the cultivated varieties are chamomile, lemongrass, lemon balm, mint, fennel, hibiscus, lavender, roses, among others, in addition to special blends with teas, fruits and flowers.

The product is produced in bulk, in 15g packages in sachets. In addition to teas, we produce gourmet organic jams, such as lavender, rose, bergamot with lemongrass, strawberry with walnuts, and strawberry with dragon fruit, as well as a line of diet biscuits. The entire process is handcrafted, respecting the cycles and timing of nature, with production volumes adjustable according to demand.
