

COFFEE

COMPANY

Café Galicia began with the aim of adding value to the coffee produced on the Galicia farm, a specialty coffee, full of nuances and different flavors, with a post-harvest of micro-lots cared for with great affection by its owner Luiza Dorna.

The first batch of roasted coffee started with 10 kg, only to order, in mid-January 2022, all handmade with great care and love. We roasted 2 kg at a time, spending around 40 minutes for each roast.

Today we send Café Galicia to almost every state in the country.

PRODUCTS

Specialty coffee, with micro-batches in the post-harvest, cared for by the owner's partner, roasted and ground by the owner, and when labor is needed, the wives of the employees are called in. In this way, I can say that the work at the roasting plant is done only by women, women who are as special as the coffee produced at Fazenda Galicia.

Selected Grains

After being harvested, our coffee goes through a selection and evaluation process and is then roasted for distribution.

Classification

Once the beans have been selected, they are subjected to a careful classification to determine what type of drink they will make.

Roasting, Grinding and Packing

After the last stage, each type of coffee is roasted, ground and packed in its respective container for sale.

Specialty coffee, roasted beans and/or ground, in 1kg, 500gr and 250gr packs and Green coffee.

DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:

PRODUCTION CAPACITY 60KG PER DAY

Seasonality in the Café Galicia Industry is almost non-existent, because Galicia Coffee is a specialty product that pleases the most demanding palates and coffee lovers. Therefore, it is consumed throughout the year, and in order to have coffee with a fresh roast, new roasts are needed almost daily to best serve our customers.
