

**GRAIN  
INDUSTRY**

## COMPANY

Agrícola Ferrari is an integrated agricultural company that buys products in Brazil and delivers them worldwide. Founded in 1988, with headquarters in Passo Fundo (Rio Grande do Sul) and branches in Mato Grosso and Pará. After intensive investment and development processes, we are now the largest producer and exporter of sesame and popcorn in Brazil. Our business receives and processes more than 150,000 tons of grain every year. We produce and sell seeds for our partner farmers and grains for our customers.

Our industrial facilities are capable of processing up to six different products without cross-contamination. Our lines can sort grains by size, shape, weight and color, using the most advanced machinery.
