

**BRAZILIAN
COFFEE**

COMPANY

The Café Kremon brand began its activities in 1974, in Nerópolis-GO, when founder Jamilo Silvério began industrializing coffees with beans from producers in the cerrado region of Goiás. The name "Kremon" was inspired by the Italian city of Cremona.

In the 1980s, he produced Arabica coffees on his rural property in the town. The brand operates in the coffee segment, offering vacuum-packed products suitable for export, coffees from special origins such as "Sul de Minas", "Cerrado Goiano", etc. It operates mainly in the state of Goiás and its marketing focus is on the careful selection of beans and the brand's tradition.

PRODUCTS

NCM 0901.11.10

Wood-roasted coffees, made from carefully selected 100% Arabica beans, which provide a remarkable sensory experience from the beginning to the end of the cup. Each roast is conducted with artisanal precision, enhancing the unique aromas and flavors that define Café Kremon's identity.

Our products are vacuum-packed, guaranteeing freshness, aroma and quality for up to 2 years of shelf life. Available in 500g packages, the coffees preserve all the intensity and authenticity of the bean. We also produce capsules compatible with the Nespresso system, as well as 250g versions of roasted and ground beans, designed for those looking for practicality without sacrificing flavor.

Café Kremon is the result of a process that combines tradition, care and passion for what we do. More than coffee, we deliver stories, memories and a legacy of excellence that reflects the true pleasure of savoring a coffee made with soul and dedication.

DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:

We currently have a production capacity of up to 100 tons per month, in just one work shift, the result of an efficient, modern and carefully structured production process.
