

COMPANY

We were born out of the dream of a young entrepreneur with a passion for grapes and we have transformed that dream into an artisanal project of natural wines and sparkling wines, produced in the Serra Gaúcha, in Bento Gonçalves/RS, for Brazil and the world.

Five years old, we produce around 2,000 bottles a year, each one made with care and attention to detail. Our dedication has already been recognized with important awards: 2nd Best Wine in Brazil by the CNA award, among the 10 Best Sparkling Wines in the Americas by the Descorchados Guide, Gold Medal in Vinus Argentina 2024 and Grand Gold in the Grand Tasting of Wines Brazil 2025.

PRODUCTS

NCM 2204.21.00

That's our motto. Each vintage and bottle reflects months of care and dedication, accompanying each bunch of grapes from cultivation to its transformation into wine. Handcrafted in the Serra Gaúcha, our wines capture the unique essence of the region and are destined for Brazil and the world, carrying in each bottle the identity of the land and the passion for the artisanal process.

At Sanabria, we deeply value the work of small producers, sourcing grapes from local partners and closely monitoring the management of the plants, soil and vines throughout the year. Harvesting is entirely manual, done bunch by bunch, ensuring that only the best quality fruit reaches production. After selection, the grapes are pressed and taken to fermentation tanks, using only natural yeasts, without oenological inputs, preserving the lively and authentic character of each wine.

The entire process, from harvesting to bottling and storage, is overseen by our founder and winemaker, Carlos Sanabria, ensuring that each bottle delivers quality, consistency and a unique sensory experience. Thus, our wines not only carry flavor and aroma, but also tell the story of the dedication, artisanal care and tradition of the Serra Gaúcha, offering consumers a drink that is at once genuine, sophisticated and memorable.
