

**JUICES, WINES
AND SPARKLING
WINES**

COMPANY

The Casa Geraldo winery is located in Andradás, in the south of Minas Gerais, in the Serra da Mantiqueira. It was founded in 1969 by Mr. Geraldo Marcon, starting to plant grapes for the production of table wines. Since then, the family has dedicated itself to making wines, in a work that has been passed down from generation to generation. Currently, new vineyards are being planted to produce new, sophisticated wines with the terroir of our region. Wines that carry our love of winemaking in their DNA.

The company is a pioneer in the production of fine wines using the double pruning or winter harvest technique, resulting in fruit with a high degree of ripeness, due to the temperature range, cold nights and hot days, of the Serra da Mantiqueira winter, thus obtaining high levels of sugar and tannins.
