COMPANY

Since 1976, the Walter family has grown rice of excellent quality. The third generation of the family developed new crops, such as beans, corn and soybeans, as well as angus livestock, always respecting the environment and natural resources.

The company offers Agulhinha Special Rice, Parboiled Rice, Whole Grain Rice, Black Beans and Carioca Beans. Caring for our cereal starts from seed production, and extends to the selection, processing, packaging, storage and distribution of the product.

PRODUCTS

Cerealista Miraguaia has the state-of-the-art machines and uses the most advanced technologies for rice processing to offer products of the best quality and flavor. The process through which the rice undergoes is fully automated; from receiving to packaging, everything is done without human contact, ensuring the excellence of the grain quality.

Our rice is produced in one of the best regions in the world for grain production, North coast of Rio Grande do Sul, which guarantees a tastier rice, of high quality, because it is a region with perfect climate and soil for cultivation.

RICE AND BEANS

DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:

The group has a modern industry with 10,000m2 of storage, processing and packaging area of the grains.

It currently works with rice and beans, but is gradually increasing its portfolio with other Brazilian products. With ethics and respect as the basis of conduct, we guarantee the community, employees and consumers products.
