

## COMPANY

Founded in 2013, the Pará Beekeeping Cooperative - PARAMEL was born out of the dream of small rural producers who believed in the potential of beekeeping and meliponiculture as tools for sustainable development and appreciation of the Amazon.

In its early years, PARAMEL concentrated its efforts on the municipality of Santa Bárbara do Pará, supporting local farmers, promoting training and strengthening the production of honey and honey products. With its collective commitment, the cooperative expanded its operations to Santa Izabel do Pará, Santo Antônio do Tauá, Benevides and Belém, expanding its network of cooperative members and further strengthening the beekeeping sector in the Belém metropolitan region.

## PRODUCTS

NCM 0409.00.00

Throughout its history, a cooperative has built strategic partnerships that have been fundamental to its growth. The Pará State Government, the FAEPA System, SENAR, FUNDEPEC and SEBRAE have been by PARAMEL's side, offering knowledge, training, infrastructure and encouragement to turn dreams into achievements.

These alliances strengthen collective work and open doors to professionalizing the production of honey and honey products, guaranteeing greater quality, sustainability and competitiveness.

The year 2025 marks a major milestone in PARAMEL's history: the achievement of the Federal Inspection Seal (SIF), which attests to the quality and safety of our products and opens the door to the national and international markets. This achievement was only possible thanks to the support and encouragement of AGROBR and the Confederation of Agriculture and Livestock of Brazil (CNA), which believed in the cooperative's potential and its mission to strengthen Amazonian rural producers. Like the bees that pollinate and transform nature, PARAMEL's mission is to bring opportunities to rural producers, generating income, promoting sustainability and positioning the best Amazonian meters on the national market and beyond.

Our history is made up of unity, collective work and gratitude. Unity among the cooperative members, work with respect for nature and gratitude to all the partners who believe in the transformative potential of beekeeping and meliponiculture in Pará.

Today, PARAMEL is more than a cooperative: it is a symbol of innovation, sustainability and cooperation. Just like bees, others are united, pollinating dreams and reaping results for everyone.

### DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:

**High production capacity, with annual production. In addition to honey, we are organizing our propolis and pollen range.**

**PARAMEL**  
City: Santa Bárbara do Pará  
State: Pará  
Brazil
