

**CRAFT
BEER**

COMPANY

Cervejaria Normandia was founded with the purpose of raising the quality standard and ensuring supply reliability in the beverage market.

Strategically located in Chapadão do Sul, Mato Grosso do Sul, a state in the Brazilian Midwest, Cervejaria Normandia is the brewing export hub between the Atlantic and Pacific oceans.

Positioned in the Capricorn Bioceanic Corridor, we offer the purity of traditional recipes combined with the exclusivity of ingredients from Brazil's Cerrado and Pantanal biomes. We are at the gateway to South America, where we deliver exotic flavor with international standards.

PRODUCTS

NCM 2203.00.00

Our Product Line: The Meeting of the Exotic and the Premium. Discover the world's only beer that unites German tradition with Brazilian identity:

Under the incredible direction of Luiza Leite and Gabriel Dresch, Normandia doesn't just deliver draft beer; we deliver the terroir of the heart of Brazil in an internationally excellent recipe.

Our recipes respect traditional purity but elevate the sensory experience with unique differentiators:

Apia (Pantanal Honey): Our crown jewel; an exclusive combination of the German recipe with wild honey with a GI from one of the world's richest biomes.

Amber: The passion of specialists. Full-bodied, stunning color, and slightly sweet; a beer for those seeking complexity.

Pilsen: The classic golden color, light body, and subtle bitterness; maximum refreshment with fine, dry malt.

Session IPA: Citrus and tropical explosion of American hops. High drinkability, moderate bitterness, and ideal for hot climates.

Wine Draft Beer: The sophistication of Bordô grapes from Serra Gaúcha meets the freshness of draft beer in a balanced and fun blend.

DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:

Become Cervejaria Normandia's exclusive partner in your region. Combine the strength of the Bioceanic Corridor with the authenticity of our beverages and discover new market opportunities. Request our technical catalog and learn about our export conditions.
