COMPANY

We are a French-inspired farm located in Novo Paraíso in the city of Estrela, central Rio Grande do Sul. We have preserved the productive tradition of our ancestors and modernized the cultivation system using the latest state-of-the-art facilities, equipment, and management techniques while observing the most stringent standards for the sustainable and organic production of strawberries and peppers.

The strawberries are **100% organic and sustainable**. They are available in two varieties - Albion and San Andreas - and a range of types and sizes of packaging.

PRODUCTS

Fraise distinguishes itself in organic and sustainable production due to its use of technology in food production. Producing strawberries and other healthy, organic, and sustainable foods is not merely a job for us, but our passion.

Fraise Croc is the freeze-dried, dehydrated, crunchy, and delicious fruit or vegetable that goes through an industrialization process to retain the nutritional characteristics of fresh fruit and vegetables.

They are available in a number of flavors, including **strawberry, banana, strawberry with banana, sweet potato, beetroot, and carrot.**

Frozen Fraise, are strawberries and peppers that are frozen right after harvest to preserve their freshness, aroma and nutritional qualities.

DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:

Fraisecroc installed **capacity** of 100,000 10g packages.

Frozen organic peppers **15 tons per year.**

Frozen organic strawberries **40 tons per year.**
